MUSEUM SHIPS WEEKEND ---> Sponsored by the Battleship New Jersey Amateur Radio Station (NJ2BB), this year's Museum Ships Weekend will be held from 00.00 UTC on 5 June until 23.59 UTC on the 6th. Information on the event, including the relevant certificate and the listing of participating ships, can be found at www.nj2bb.org

T31UR & T31X ---> The Pacific Odissey team left Apia (Samoa) later than planned and, after a bureaucratic hiccup, was expected to reach Kanton Island around 25 May. However, when they were just 120 nautical miles away from Kanton, their vessel's engine failed and the captain decided to sail back to Apia (a 8/10-day voyage). "Such decision was determined by the fact that the entry to the Kanton's cove without engines would be impossible", the team says, "and the repair of engine in the ocean is impossible too". Their current main concern is to reach Apia safe and sound ("200 liters of fresh water left" and still 450 nautical miles to go on 28 May). Read the latest update at www.uz1hz.com/pacificodyssey.html.
